

TOPIC 2 - AUSTRALIA'S MARKETS

Australia's 'domestic' markets make up to our economy as a whole. Our largest markets in terms of value are pictured in the top left corner of the snapshot below. Take a look at the other information revealed by this Infographic and answer the questions below:

- How much does the state of Victoria contribute to Australia's economy in terms of 'output' (ie production)? _____
- What was Australia's population last year? _____
- Why is only 60% of the population employed? _____
- If household income was \$100 000,
 - how much wealth would the average household have? _____
 - how much debt would the household have on average? _____
