

Imagine a girl...

Who loves to move around a lot and think outside the box
Is a bookworm
Whose mum has been her pillar of strength
Who plays trombone
Who wonders - in year 7, are we allowed to share food?

Imagine a Year 7 who...
Talks too much, but gets her work done
Whose sister will be in Year 12 this year
Who is truthful, and caring
Fun and resourceful
Inquisitive and engaged
And calls her grandparents Yiayia and Papou

Imagine a young person who...
Enjoys archery, loves baking, drawing and horses
Whose year 6 highlight was camp
Has lived in The Netherlands
Who likes to solve problems
And is looking forward to making new friends

Imagine a girl whose friends would describe her as...
Responsible, loyal, firm but gentle, loud, and hilarious
Who hates to lose
But shows great sportsmanship
Who notes that softballs, are not always soft

Imagine a new year 7 here today who...
Is looking forward to coding club
And wants to go to college in America
Is worried about getting lost
Or, is not worried about anything

She...
Learns Taekwondo, or
Loves singing in the shower and has good facial expressions
Still remembers her Year 1 reading buddy
And prefers to spend time with a few close friends rather than a big group

Imagine a girl who...
Lives with her mother, father and brother
Is an only child, a twin or has
one parent who works overseas a lot

Ponder this girl who...
Has a dog called Chilli
Has achieved grade 8 in violin
Is part of a calisthenics club, loves playing netball for school and
Thinks she knows someone from Australian Girls Choir coming here...?

This girl is...
Outgoing, selfless, honest, creative, reliable, and always tries her best
She hasn't lived in Australia very long but is grateful for her friends who have made her welcome
She has a spoodle and does wants to join a band

Her mum went to CGGS and she loves scouts

She loves watching movies, especially Harry Potter and her parents' names both start with the same letter of the alphabet

She is looking forward to...

Makerspace, electives, independence, learning new things and making new friends

At Primary School she was part of...

The environmental action group, a House Captain, had the lead in the school production, and loved year 5/6 sport...

Imagine a girl right beside you who...

Plays handball, goes to Greek school, takes tennis lessons, can play golf, and does ballet

She's diligent, grateful, courageous and sometimes a little careless

She wants a top locker and can't wait to be part of House events!

Her best subject is writing and her favourite is PE

She loves her family, has two noisy puppies and walks to school

Imagine this girl, who is serious, friendly, intelligent, supportive, funny and crazy all at once

Who is careful, generous, opinionated and fun.

Imagine her and realise that she is not one, but she is all of you, combined.
